## INTERDISCIPLINARY RESEARCH

### Principle Research Question:

How can the goals of individual and social self-determination be achieved in a world characterised by **digitally mediated processes of transformation and globalisation**, and which **framework conditions and resources** are necessary for their realisation?

## WEIZENBAUM INSTITUTE FOR THE NETWORKED SOCIETY

// A society that engages in a technique needs a strong inner force in order not to be seduced by the goals, not to become too greedy.
